KHUSHI KESHARWANI

kesharwanikhushi938@gmail.com | LinkedIn | GitHub

CAREER OBJECTIVE

Final-year CSE student (CGPA: 8.48/10) with strong foundations in DSA, OOPs, and Full Stack Development. Hands-on experience in Java, React.js, Node.js, and Data Analytics, with a growing interest in Machine Learning and a passion for building scalable, real-world applications.

EDUCATION

United Institute of Technology, Prayagraj *2023 – Present*
Bachelor of Technology, Computer Science and Engineering | CGPA: 8.48/10

Ethel Higginbottom School & College, Prayagraj *2022*
Senior Secondary (ISC) | 64.20%

Ethel Higginbottom School & College, Prayagraj *2020*
Secondary (ICSE) | 72.2%

TECHNICAL SKILLS

Programming Languages: Java, Python
Web Development: HTML, CSS, JavaScript, React.js, Node.js
Databases: MongoDB, SQL
Tools & Platforms: Git, GitHub, VS Code, Power BI
Core CS Subjects: Data Structures & Algorithms, OOPs (Java), DBMS, Operating Systems, Computer Networks

INTERNSHIPS & TRAINING

Artificial Intelligence Internship – IBM PBEL *Aug 2026*
- Completed a virtual internship covering core ML concepts, model building, and data analysis techniques.
- Built an AI-based Traffic Management System using ML to predict congestion and optimize signal timing, with a real-time Streamlit dashboard.

Data Analytics Internship – Maincraft Technology *Jun 2026*
- Cleaned and analyzed structured datasets using SQL and Excel, writing optimized queries for accurate reporting.
- Built Power BI dashboards and used EDA to extract insights, supporting faster business decisions.

Project-Oriented Machine Learning Training – United Group of Institutions *Aug 2025*
- Underwent project-oriented training in Machine Learning, covering the complete workflow from data preprocessing to model building and evaluation.
- Applied ML algorithms on real datasets to build practical, hands-on projects, strengthening problem-solving and implementation skills.

Python for Data Science Training – United Group of Institutions *Aug 2024*
- Completed training in Python for Data Science, covering data manipulation, analysis, and visualization using Pandas, NumPy, and Matplotlib.
- Applied Python programming skills to clean, process, and analyze real-world datasets, building a strong foundation for data-driven problem solving.

PROJECTS

Design and Optimization of High-Accuracy RAG System using Vector Database and LLM *Ongoing*
- Designed and developed a RAG pipeline integrating a vector database with an LLM to deliver context-aware, high-accuracy responses while reducing hallucinations.
- Implemented semantic search using embedding-based retrieval to fetch the most relevant document chunks, improving contextual relevance.
- Performed parameter tuning (chunk size, top-k retrieval, temperature, prompt engineering) to optimize response quality, latency, and performance.

E-Commerce Catalog Website *Sep 2025*
- Developed a responsive e-commerce catalog using HTML, CSS, and JavaScript with dynamic product listing, filtering, and a clean UI.
- Implemented search/filter and add-to-cart logic, focusing on smooth UX and mobile responsiveness.

Breast Cancer Detection Web App (ML) *Jun 2026*
- Built an ML model using Scikit-learn for tumor classification with a UI for real-time prediction and user interaction.

Weather Web App (JavaScript + API) *Apr 2025*
- Built a weather dashboard using HTML, CSS, and JavaScript, integrating a live weather API for real-time data display.

CERTIFICATIONS & ACHIEVEMENTS

- Selected among Top 50 teams at HackQuest'25, an inter-college hackathon conducted by UIT.
- Participated in Syntax Clash 2026, a coding competition conducted by GeeksforGeeks.
- Participated in AI Skills Fest 2026, an initiative by Microsoft.
- Certified in Exploratory Data Analysis under FutureSkills Prime, a MeitY-NASSCOM initiative.
- Completed the Career Enhancement Programme by TCS iON.
- Completed Data Analytics training under Infosys Foundation, implemented by ICT Academy.
- Certified in Machine Learning using Python – UIT.
- Certified in Python for Data Science – UIT.
- MongoDB Certified (5 badges) in AI and Innovation, AI Agents, Vector Search, RAG Apps, and MongoDB Basics for Students.
- Completed AI Tools Workshop by Be10x.
